** ANTARCTICA. 15475.98 RCUSB, Sat Jan 28 at 1515, zero signals from LRA36 into the few SDRs online, 2 in Argentina, 1 in Uruguay and 1 in Brasil. Supposed to be another Saturday special at 1500 & 1900. Manuel Méndez whatsapped them and got reply that they *are* on the air, but still we are hearing nothing; propagation? I doubt it. Then I try the webcast link via Nacional Argentina webpage but no connexion. Then MM gets a reply with a different webcast link which worx for both of us: https://sa.mp3.icecast.magma.edge-access.net/sc_rad35

I start at 1617, talk about Antarctica; 1625 cut to ``RAE Argentina to the World`` multilingual ID reel including English, then about another base, Petrel, but lost contact. 1627 rock song. 1631 ID; 1633 Nicole on phone, apparently operating on ham band. 1635 off air recording of first day on air 20/10/1979. 1638-1650 call from Romina, one of the 4 YLs of the ex-2022 crewe. 1652 acknowledges SW propagation NG today, but got webcast. 1653 scripted piece about ``La Juventud``. 1655 outro credits for ``Uniendo Voces``, into songs.

After 1900, still no SW signal into the nearest remotes. 1922 I`m on the webcast again and hear repeats of same thing including the 1979 ID, at 1945, and then Romina, etc. After 2000 keeps playing silently except for an autotimesignal at 2030 (Glenn Hauser, OK, WOR)

** ANTARCTICA. 15475.98 RC USB, Wed Feb 1 at 1857, LRA36 already on with songs: a special test for 1900-1945 previewed via Horacio Nigro as early as 1431. (I had not even bothered to check at 1500.):

``Adrian Korol advises that "Today there will be a test broadcast of LRA36 Radio Nacional Arcangel San Gabriel at 16:00 Argentine time (19 UTC) on 15476 khz USB for 45 minutes".``

I`m on one of the Argentine remotes which is getting it at the usual level, S9 peaks, not bad for 200 watts, but never overcoming the ``frying sound`` background noise level.

1900 Morse code too fast for me but presumably ID, and standard vocal s/on as ``Radio San Gabriel``, never mind the Nacional and the Arcángel, multilingual that will be only in Spanish; 1901 a reading about looking southward from Patagonia; `Uniendo Voces` program slogan; 1903 live OM as joint produxion with RAE/AAM, credits to Nicole and Adrián; contact info. Bit of music; efemérides = this week in history starting with 31 Jan 1909y; 1908 ``cultura es soberanía``; 1912 canción; 1916 ID as Radio Arcángel San Gabriel --- too much trouble to utter the full five-word name?? ``su cía``; phone tones, ``comunicad``, multilingual RAE ID reel. 1917 about carrying out pruebas, contact info again. 1918 saludos from various voices; then long talk about history of Antarctic bases, military operations; 1933

song; 1936 about memoria, but chopped off mid-sentence at 1937.5* never to return for another dekaminute I listened to the noise. Next, on Sat at 1500? (Glenn Hauser, OK, WOR)

** AUSTRALIA [non]. `Calling All Radio Nutzz`, webcast via Unique Radio, Sat Jan 28 after 1900 with GB and Jen, including Slavic languages introduced by Dr Richard E Wood; and The Two Bobs flying over Switzerland with ham contacts. Before and after 2000 playing classic interval signals, some also with anthems. Then GB plays some ham contacts with him as M1ELK. His true name seems to be a closely guarded secret, but I found a post from M1ELK somewhere as Michael Dawson, and on ham bands his handle is Mike rather than GB. I guess that merely means he`s in Great Britain, part of UKOGBANI (Glenn Hauser, OK, WOR)

** BRAZIL [and non]. 6170, Jan 31 at 0730, JBA carrier from presumed R. Saturno. First time I have detected it since a few days ago it was reported reactivated here, ex-6150.

EiBi & Aoki, not yet up with it on 6170, indicate these windows when North Korea, Ascension, Philippines are NOT on 6170: 2050-0200, 0300-0500, 0530-1000. And disregarding R. Europa, Holland, lowpower possibly 24h; and Scandinavian Weekend Radio, Finland, at certain hours once almost every month, including Feb 3-4, ON at 22-14 & 18-22.

Saturno was a rare newcomer to SW, not even making WRTH 2022 on 6150. It was first reported Oct 31, 2021 by Bryan Clark, NZ: a Belo Horizonte 92.3 FM station adding SW. Again tnx to Bryan who heard it on 6170 Jan 28, 2023, ex-6150 where heard on Jan 22, and Brazilians first reported 6170 on Jan 24. Further chex here needed! (Glenn Hauser, OK, WOR)

** CANADA. 300 MCW kHz, Jan 26 at 0706 UT, dash and YIV, 500 watt ND beacon at Island Lake, Manitoba; seldom heard. Unfortunately my local high line? noise level 350-420 kHz peaking about 385 has resumed.

328 MCW kHz, Jan 26 at 0707 UT, dash and YTL, 1000 watt NDB at Big Trout Lake, Ontario; seldom heard. Only lightning around N America off the Carolina coasts, and off Yucatán (Glenn Hauser, OK, WOR)

** CANADA. 346 MCW kHz, Jan 28 at 0716 UT, dash and YXL, 500 watt ND beacon at Sioux Lookout, Ontario

382 MCW kHz, Jan 28 at 0712 UT, dash and YPL, 1000 watt NDB at Pickle Lake, Ontario, just enough to overcome my local noise hump. I daresay that beacons like these really put such remote spots on the map (Glenn Hauser, OK, WOR)

** CANADA. 2598 USB, Jan 31 at 0737, marine weather by roboyl for Grand Banx area, S8. 2749 USB not on yet but at 0740 with more of same on weaker signal, i.e. first broadcasts of day from 2598, 3 kW VCP-4 at Placentia, Newfoundland; and 2749, 0.55 kW VCO Sydney, Nova Scotia. BTW, nowhere on the extensive dxinfocentre.com/mb roster are there any VCP-1, -2 or -3 (Glenn Hauser, OK, WOR)

** CANADA. 28174 CW, Jan 28 at 2232, E E E E E E E E E E VVV DE VE1VDM/B --- and very long pauses between repeats. This explains it on the WI5V 10m beacon reference: ``28.174 VE1DVM C TRURO, NOVA SCOTIA, CA, 1.2 min CW, then QSY to QRSS and WSPR-CW bands in sequence``

QRZ.com: VE1VDM Canada flag Canada
Vernon Matheson, 392 Onslow Road, UPPER ONSLOW, NS B6L 5K9, Canada
``Presently I have an AA7DJ 10m beacon on 28.174.0 at 10 watts into a 10 meter dipole at approximately 20' AGL. Grid square is FN85ij for this beacon. 73 de Vernon``

Quick check of other 10m sigs finds that beacon in BC and phonehams in western Washington, some kind of contest. F2 single-hop skip distances at 28+ MHz are such that reception from far corners of the continent are most likely (Glenn Hauser, OK, WOR)

** COLOMBIZUELA [and non?]. 4941-4945 approx., Feb 1 at 0720, strange noise peak accompanying 4940 SS gospel huxter (Glenn Hauser, OK, WOR)

** CUBA. 11760, Jan 27 at 0737, S5/S9 of dead air: this time must be RHC, as France finishes at 0730; only thing listed is CNR1. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Jan 29 at 0644, RHC in English, S9+10/20, supposed to be Spanish only and off much earlier; while the correct English frequencies of 5040, 6000, 6060, 6100, 6165, 12000 are all OFF already. 11760 is still on at 0732 starting jazz show, S9+10. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13740, Sun Jan 29 at 1600, RHC on here at S9/+10, not 13700, but no spurs; Spanish ID and supposedly only on 11760 & 15140 after 1600. IS, and opening Esperanto, 1603 wrong info for all three weekly broadcasts as I have quoted time and again. Today Esp`o not only on usual 11760 and 15140 but extras 13740 and by 1610, 15230 is also still on, JBM S9. 15140 is S9+20/30 with adequate modulation level but some squeal. Somethings` always wrong at RHC. EiBi shows 13700 at 1400-1600 only, but 13740 at 1200-1600 & 2200-0500; 15230 at 1300-1600 & 2300-0600, no mention of Esperanto for any except 11760 & 15140 (Glenn Hauser, OK, WOR)

** CUBA. 5025, Jan 30 at 0720, R. Rebelde is on and modulating, but nothing on X2 = 10050; despite frequent chex, have not heard that nor 10080 = 5040 X2 RHC lately. It seems 10080 was last heard Jan 12; 10050 Dec 11. Something`s not wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 13680, Sun Jan 29 at 2138, RHC in Arabic, not Esperanto; and 15140 is off: either of which have sometimes spoken Esperantely. Something`s always wrong at RHC. However, Jan 30 at 2203, 15140 still on late with headlines and news in Spanish, S9+10/20 the SSOB (Glenn Hauser, OK, WOR)

** CUBA. 11760, Jan 31 at 0732, RHC S9+10 with maybe a trace of modulation while all its 5, 6 and 10 MHz frequencies are off. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 6060, Feb 1 at 0714 S9+10/20 of silence, the one RHC transmitter still on, no others on 5, 6, 10, 11 or 13 MHz bands; vying for dead-air sweepstakes with WRMI, q.v. (Glenn Hauser, OK, WOR)

** DENMARK [and non]. 25800, Jan 29 at 1615, JBA carrier the OSOB, while Andy Robins & Harold Frodge in MI, Andy Reid in Ontario, have been getting more than that before and at 1700 today. It`s World Music Radio, 60 watts, 24/7 per op SHN as of 12/31. Per Aoki & EiBi it`s the only SWBC station active on the 11 mb. There used to be something DRM from Germany? HFCC shows imaginary registrations from Bulgaria 26000, Vatican 26010 for IRDR; and WMR might alternatively use 25795 or 25805.

A few years ago there were US low-power NBFM ``remote pickup`` or ``talkback`` transmitters, 25870 from WFLA, 25950 from Denver, 25990 from The Metroplex, or vice versa? And several more in the 26.1-26.5 range, all gone now? Never reported or listed (Glenn Hauser, OK, WOR)

** ETHIOPIA [non]. 15185, Jan 26 at 1610, S9/+10 with flutter but just barely modulated. EiBi shows Oromiya Public Media, clandestine at 1600-1630 via FRANCE in TIG (Glenn Hauser, OK, WOR)

** FRANCE. 11760, Jan 26 at 0719, S5/S8 talk in something; could it be RHC on very late again? Also 13740, Jan 26 at 0725 algo here JBA, another RHC frequency: but No, scheduled 0700-0730 both RFI in Hausa (Glenn Hauser, OK, WOR)

** GERMANY. 9670, Jan 26 at 0731, pop music S5/S7, presumed Channel 292, nothing else in EiBi at this hour. No specific program sked at this time, https://www.channel292.de/schedule-9670-khz/ so not filling up all extra time with TOMBS (Glenn Hauser, OK, WOR)

** GUAM. 15680, Jan 30 at 2202, S7/S9 in unID SE Asian? language, OOFSOB = One Of Few Signals On Band. EiBi shows at 2200-2230, KSDA in NJ to Indonesia; Aoki, Nga. EiBi readme.txt language list shows NGA - all caps, means Ngangela/Nyemba: Angola, but that can`t be right; while NJ, not New Joisey dialect, but: Ngaju Dayak: Indonesia-Borneo (0.9m) (Glenn Hauser, OK, WOR)

** KIRITIMATI. 846 kHz, Jan 26 at 0711, JBA carrier from R. Kiribati, only 9/kHz split audible (Glenn Hauser, OK, WOR) then not: see unIDs

** KOREA NORTH. 9650, Jan 31 at 0735, S5 of choral music, no doubt VOK Japanese as scheduled (Glenn Hauser, OK, WOR)

** KOREA SOUTH. 6155, Jan 27 at 0757, chiming IS interspersed with Japanese announcements, S5/S6; 0800 KBSWR opening theme. Is direct far2 beyond neighborly target (Glenn Hauser, OK, WOR)

** MADAGASCAR. 17730, Jan 31 at 1622, S7/S9 algo JBM: listed is AWR in Marathi to India via Talata (Glenn Hauser, OK, WOR)

** NETHERLANDS. 6020, Jan 29 at 0733, JBA carrier, presumed Delta Radio International, as being reported active as far away as BC by Walt Salmaniw. Per EiBi, only other signal now would be Vietnam, but well before sunset there. 6020 suffers from 6030 Cuban jamming against nothing bleedover. DRI also on 11730 but no signal there here. It`s a low-powered, irregular, ex-pirate (Glenn Hauser, OK, WOR)

** NIGERIA. 7255-, Jan 28 at 0658, S9/+10 of dead air, but off the air by next check 0730; anyhow V of Nigeria is not totally dead yet. Last times I heard it were Jan 5/7/9, all with little or no modulation, and well after 0700. Maybe it were pointlessly on more dates before 0700? (Glenn Hauser, OK, WOR)

** NIGERIA. 7255-, Jan 29 at 0635, VON is S9+20/30 with music but just barely modulated. Something`s always abysmal at Abuja. Ron Howard was also hearing it modulating before 0700 yesterday. Manuel Méndez and Walt Salmaniw also hearing it before 0700 today. For me today it`s still on and JBM past 0741 at S9/+10. Supposed to switch from Hausa to Fulfulde at 0700; English after 0800 (Glenn Hauser, OK, WOR)

** NIGERIA. 7255-, Jan 30 at 0652, S9+10/20 of dead air except for squeal from VON. Something`s always abnormal at Abuja (Glenn Hauser, OK, WOR)

** NIGERIA. 7255-, Jan 31 at 0733, no signal from VON; was it on earlier today? (Glenn Hauser, OK, WOR)

** OKLAHOMA. 90.1, Jan 31 at 1800 UT, KUCO-FM with no StarDate,

instead WFMT teaser. O, as website explains due to icy roads staff are not coming in today, rather plugging in to a network feed, which also means they cannot manage local insertions of Modules; yet the still-original website has finally updated the Module skeds: https://www.kucofm.com/programs/list-of-modules/
Same situation Feb 1 at 1800 UT, no StarDate on KUCO, so get it at 1804 on KANU / Kansas Public Radio (Glenn Hauser, Enid, WOR)

** SAO TOME E PRINCIPE. 15460.072, Jan 29 at 1612, S9+10/20, the SSOB in African language, from USAGM`s most capable off-frequency site, Pinheira. EiBi shows VOA this semihour in KNK, which is keyed to mean ``KinyaRwanda/KiRundi service of VOA, BBC``. How different are they? https://en.wikipedia.org/wiki/Rwanda-Rundi (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Fri Jan 27 at 2300, token English from REE, S9+10/20 into Maryland SDR with news; 2308 interview by Justin Coe about Sécanos Vivos = Drylands Alive, managing olive lands, biodiversity; 2317 comments by Allan? Moore with whom he visited the Martin Wong exhibition last week, about criminality and art, graffiti and gayness. 2322 interview with an opera, zarzuela singer, Cristina --?, and going out at 2325 with her singing Habañera from Carmen: seems like amateur recording, marred by some snags/wows; and she is not finished by the 2330 timesignal and switch to French. I`m simulmonitoring TURKEY, q.v. (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Mon Jan 30 at 2306, token M/W/F English from REE, after news, Amy Egan interviewing a woman director? about a play based on letters between two women of different ages. S9 +20 on NAm frequency into Maryland SDR, weaker on meter but still VG on 12030 to ME off the back, and 11940 to SAm off the sidish. Still zero signal on 11670 or 11685 to Africa. Occupies rest of semihour with 2 minutes of song about letters to conclude (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Wed Feb 1 at 2302, token English from REE in news, S9+5/18 into Virginia SDR // 12030 and 11940 weakers but usables and nothing on 11670. News ends with latest COVID figures from different regions in Spain. 2306 an interview with Yolanda about sustainability, hard to follow due to accent vs noisy reception (Glenn Hauser, OK, WOR)

** TURKEY. 5960.001+, Jan 27 at 2307, VOT S9+25/35 into UTwente, after news, Review of the Turkish Press mainly about Erdogan pissed at Sweden allowing a Dane to burn a Qur`an. By 2311 the usual CCCCCCI has started from East Turkistan, standard denunciation, but quite underweaker. 2313 Weekly Commentary on the same subject, by a professor, who says this went beyond freedom of expression which is not unlimited if it ``hurts`` someone. 2320 multilingual filler ID reel; this time I note Persian, ``inja ---``, and see that is not a

VOT SW language per WRTH. 2326 Feeling Supreme/The Healing Spring repeat about herbal remedies for constipation in children. How many Americans will have heard and followed such advice?? 2353 recheck going from s/off schedule to IS.
2356 restarts IS now interspersed with German IDs; 0000 timesignals mixing with CCCCCCI and s/on German with a timecheck for 1830. German still going at 0023, but off by 0044 with Urumqi uncovered. Something`s always erroneous at Emirler. Until 2330 I was simulmonitoring SPAIN, q.v. (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960.000+, Jan 28 at 2344, nothing but Chinese into UTwente, so VOT English to N America is again a failure, ceding to EAST TURKISTAN, land of imperialist ChiCom genocide against Uyghurs and other Moslems. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Jan 30 at 2309, VOT VG into UTwente, last news item about Toyota going to build hybrid E-SUVs in Turkey; 2311 `Review of the Turkish Press`, as the CCCCCCI starts from E Turkistan, std denunciation. 2313 song. 2317 `Feeling Supreme/The Healing Spring` about health benefits of pickles, evidently also various other foods pickled such as Sauerkraut: good for intestines, anti-oxident, affects moods, ending with ``Stay healthy, stay happy``. This bit surely has a catchy themetune: what is it? 2324 multi-lingual ID reel filler, during which I recognize a few more languages which WRTH says are NOT on VOT SW sked: Greek, Romanian, Hungarian. Tsk: BTW, Hungarian is related to Turkish. 2326 song. Not attentive during 2330 NBC Eveningly News; 2353 s/off, 2355 IS, 2356 restart IS with one German ID before chopoff at 2356.7 uncovering XJPBS (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.000+, Jan 31 at *2259 carrier on over BBC Oman promo until its 2259.5*. Bit of music, dead air. 2300, 4+1 timesignal and Chinese! s/on of XJPBS Urumqi, no sign of VOT. XJPBS carrier may be on by 2300 but usually does not start modulating until about 2311. But VOT has come on late, S9+40 by next check 2307 with news in progress, on 5960.002+, both as measured by UTwente Synch. The + means constantly fluxuating in the hundredths of a Hz, not clear whether of the transmitters, receiver, or both. VOT continues well atop XJPBS as an undercurrent.

2314 `Review of the Turkish Press`, not in any depth as usual. 2316 song. 2320 `Weekly Commentary`, by a freelance journalist in Berlin whose name I cannot copy, read by the heavily-accented woman announcer, about anti-American sentiment in Germany, foot-dragging on aiding Ukraine with some faxions wanting to maintain close relations with Russia. Implies that it`s in US` interest to escalate the war! Closing with disclaimer about opinions, name again I cannot understand, and invites listeners to submit their own commentaries by

email for possible broadcast.

2329 music. 2336 multi-lingual ID filler reel. 2338 music. 2344 recipe for a pastry in `Turkey`s Geo-something Products`. 2346 multi-lingual ID filler reel *again*. 2348 music. 2353 s/off with full but jumbled English sked. 2354 IS. 2356 restart IS with German IDs interspersed. 0000 Feb 1, 5+1 timesignal, same pitch but final pip prolonged, and s/on German, into news. Finally cuts off at 0010 uncovering XJPBS. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960, Feb 1 at 2300, no signal from VOT into UTwente. Something`s always erroneous at Emirler; at first no signal either from XJPBS, Urumqi, East Turkistan, land of imperialist ChiCom genocide against Uighurs and other Moslems, but it`s on and modulating Chinese by 2311, still alone at 2330 (Glenn Hauser, OK, WOR)

** U K [non]. Jan 26 was reportedly the final day for BBC in Arabic after 85 years! Since Ivo posted the schedule, I`m checking UTwente on 9585 from 1657 Jan 27.

``U.K.(non) BBC's Arabic service bids farewell to the world
after 85 years of broadcasting. The current winter schedule
0300-0400 on 7425 WOF 250 kW / 140 deg to CEAf Arabic B-22
0300-0500 on 9840vDHA 250 kW / 255 deg to CEAf Arabic B-22
0500-0600 on 15335vDHA 250 kW / 255 deg to CEAf Arabic B-22
0600-0700 on 17760vDHA 250 kW / 255 deg to CEAf Arabic B-22
1700-1900 on 9585vDHA 250 kW / 255 deg to CEAf Arabic B-22
1900-2000 on 6150vDHA 250 kW / 255 deg to CEAf Arabic B-22
2000-2100 on 6150 SLA 125 kW / 260 deg to CEAf Arabic B-22
Also on MW 639 CYP and 720 CYP 0300-0700 and 1700-2100 UT.``

No signal on 9585 until at 1700, ``WorldService.com``, S9+10/20 but carrier cuts off and on again, no modulation in Arabic or English, finally turned off at 1702.5*. I guess the UAE operators were not quite sure whether there would still be any Arabic feed to emit; still off past 1716. It might be interesting to check starts of the other formerly scheduled broadcasts: 6150 at 1855-1902: nothing (Glenn Hauser, OK, WOR)

** U S A. Some ND beacons JBA now with lower noise level, no lightning anywhere in North America or vicinity per Blitzortung:

329 MCW kHz, Jan 27 at 0725 UT, PMV, 25-watt ND beacon at Plattsmouth NE.

347 MCW kHz, Jan 27 at 0724 UT, AFK, 25-watt NDB at Nebraska City NE.

356 MCW kHz, Jan 27 at 0723 UT, ODX, 25-watt NDB at Ord, Nebraska:

probably my most productive beacon state beyond OK even tho it`s second-adjacent (Glenn Hauser, OK, WOR)

** U S A. 344 MCW kHz, Jan 28 at 0715 UT, JL, 25 watt ND beacon at JopLin MO; tuned to 342 USB, just above 341 EI EnId; seldom heard (Glenn Hauser, OK, WOR)

** U S A. 4095 CW, Jan 30 at 0713 UT, Desert Whooper beacon somewhere in the Southwest, DW ID and sweeps upward; JBA in noise level, unheard for months on occasional chex. 2097.3 CW, single-letter beacon A every dekasecond is still JBA (Glenn Hauser, OK, WOR)

** U S A. 13563.5 CW, Jan 29 at 2137, PCO, 4-milliwatt HIFER beacon at Pine, ColoradO, is JBA (Glenn Hauser, OK, WOR)

** U S A. 13565 CW, Jan 26 at 1607, HIFER beacon K6FRC ID over and over, JBA vs CODAR, 1.8 milliwatts from Patterson CA (Glenn Hauser, OK, WOR)

** U S A. 13565, Jan 31 at 1558, K6FRC, Patterson CA, 1.8 mW HIFER beacon is JBA with calls repeating, QRMing CODAR (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2174 monitoring: confirmed UT Thursday January 26 at 0130 on WRMI 9395, S9+10/15, and 5010, S7/S9, both into Maryland SDR. Unknown bit of music intruded between ID and start of WOR on 9395.

WORLD OF RADIO 2175 contents: Antarctica, Argentina and non, (Armenia), Austria, (Bulgaria), Colombia, Cuba, (Cyprus), Europe, (Germany), Indonesia, Israel, (Italy), Kazakhstan, (Japan), Korea North non, Korea South, Kyrgyzstan, New Zealand, Romania, Sa`udi Arabia, Spain, Turkey, Ukraine, UK, USA, (Uzbekistan), Vanuatu, (Vatican non), Vietnam; SWL Fest; propagation outlook. (countries mentioned with others not in order)

WORLD OF RADIO 2175 available from 0140 UT January 27

2200 UT Wednesday WBCQ 7490v to WSW
0130 UT Thursday WRMI 9395 to NNW
0130 UT Thursday WRMI 5010 to S

Full schedule including AM, FM, webcasts, satellite, podcasts:
http://www.worldofradio.com/radioskd.html

Like our website, a noncommercial service for which financial support is appreciated. Thanks this week to Ray Lappeus, Freeland, Michigan, with a contribution via PayPal to woradio at yahoo.com - in US funds but not necessarily.

One may also contribute by MO or check on a US bank to:
Glenn Hauser, P O Box 1684, Enid, OK 73702 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2175 monitoring: Confirmed first SWBC, UT Friday January 27 at 0330 on WRMI 7780, good S8/S9 into Maurice LA SDR. Preceded by Firedragon-like music at 0329, no ID break; and still starts with noise blast over first 14 seconds, not moved to start 15 seconds later!

Time for the Romania item about folk music was upcut: should be 0230.

Not confirmed Friday January 27 at 1530 on WRMI 9955, since that frequency is already off when first checked at 1520; unlike last Friday when it permanested past 1600. However still on webcast at 1530, checked at 1556. Again followed at 1559 by Firedragon-like music; 1600 into Deutsche Welle, Africa Link on WRN. Why is this in Bonn rather than Köln or Berlin? System B sked still claims 9955 does not change to Internet only until 1630! I recheck the stream at 1630 when `Let the Bible Speak` starts as sked on Fridays only.

Also confirmed Friday January 27 at 2130 on IRRS SW via AM Italia,

1323 kHz only, S7/S8 vs HNL into Parma SDR; when Noale accessed at 2144, VG S9+15/20. Next:

0130 UT Saturday WRMI 5850 to NW
0500 UT Saturday WBCQ Radio Angela 5130v to WSW
2030vUT Saturday WA0RCR 1860-AM
2230 UT Saturday WRMI 15770 to NE
0030 UT Sunday WRMI 7780 to SW
0400vUT Sunday WA0RCR 1860-AM [nominal 0415; as late as 0530]
0800 UT Sunday Unique R, Australia 5035 USB [low power]
2100 UT Sunday IRRS 1323 & 918? & 207?-Italy
0030 UT Monday WRMI 7780 to SW
0400vUT Monday WBCQ Area 51 6160v to WSW
0130 UT Tuesday WRMI 9395 to NNW
0030 UT Wednesday WRMI 9395 to NNW
1000 UT Wednesday Unique R, Australia 5035 USB [low power]
1030 UT Wednesday WRMI 5850 to NW [canceled?]
2200 UT Wednesday WBCQ 7490v to WSW
0130 UT Thursday WRMI 9395 to NNW
0130 UT Thursday WRMI 5010 to S
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2175 monitoring: confirmed UT Saturday January 28 at 0140 the 0130 on WRMI 5850, S8 into Maryland SDR.

Also confirmed UT Saturday January 28 at 0500 on WBCQ Radio Angela, 5130, S9/+15 into Virginia SDR, S7/S9 into Maryland SDR but better S/N ratio. Offsets compared: Maryland -7/8 Hz; Virginia - 14/15 Hz. Both cannot be right, so then I compare them on 5000.000 WWV: Maryland -0.2 to +0.3; Virginia, -6.6 to -7.1 Hz so the latter must not be believed. Of course, WWV would not be varying 0.5 Hz: must be SDRs` instability.

Also confirmed Saturday January 28 at 1700 on WRN N America webcast.

Also confirmed from 2033 UT Saturday January 28 on WA0RCR, 1860 AM, VG S9+20 into nearby remote by groundwave.

Also confirmed Saturday January 28 at 2230 on WRMI 15770, S9/+5 direct; and once again NOT on scheduled 5850: after ID 2229.5, music plays, apparently fill rather than a specific program; and listed // 7730 is still imaginary. Next:

0030 UT Sunday WRMI 7780 to SW
0400vUT Sunday WA0RCR 1860-AM [nominal 0415; as late as 0530]
0800 UT Sunday Unique R, Australia 5035 USB [low power]
0830 UT Sunday Unique R, replay of last week`s WOR

2100 UT Sunday IRRS 1323 & 918? & 207?-Italy
0030 UT Monday WRMI 7780 to SW
0400vUT Monday WBCQ Area 51 6160v to WSW
0130 UT Tuesday WRMI 9395 to NNW
0030 UT Wednesday WRMI 9395 to NNW
1000 UT Wednesday Unique R, Australia 5035 USB [low power]
1030 UT Wednesday WRMI 5850 to NW [canceled?]
2200 UT Wednesday WBCQ 7490v to WSW
0130 UT Thursday WRMI 9395 to NNW
0130 UT Thursday WRMI 5010 to S
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2175 monitoring: confirmed UT Sunday January 29 at 0030 on WRMI 7780, S7/S9 to Maryland SDR, S9/+10 to Louisiana.

Also confirmed UT Sunday January 29 at 0435 about 6 minutes into, so started circa 0429 on WA0RCR, 1860 AM, MO, S9+20 groundwave into nearby SDR. Lots of CW QRM, some contest, best evaded by LSB tuning. Next:

2100 UT Sunday IRRS 1323 & 918? & 207?-Italy
0030 UT Monday WRMI 7780 to SW
0400vUT Monday WBCQ Area 51 6160v to WSW
0130 UT Tuesday WRMI 9395 to NNW
0030 UT Wednesday WRMI 9395 to NNW
1000 UT Wednesday Unique R, Australia 5035 USB [low power]
1030 UT Wednesday WRMI 5850 to NW [canceled?]
2200 UT Wednesday WBCQ 7490v to WSW
0130 UT Thursday WRMI 9395 to NNW
0130 UT Thursday WRMI 5010 to S
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2175 monitoring: Confirmed Sunday January 29 at 2100.5 on IRRS SW via AM Italia, 1323 kHz only, S9+10/20 into nearby Noale SDR; 2058 ME music, faded out at 2100 for ID claiming frequencies are 7125!, 9510, 1323. During announcement, music CCI JBA underneath with slow SAH, probably Smooth Radio, Brighton, England.

Missed checking UT Monday January 30 at 0030 on WRMI 7780: did anyone hear it?

Confirmed UT Monday January 30 at 0400 on WBCQ Area 51, 6160 minus 64 Hz = 6159.936, S9/+5 VG into Maryland SDR. Next:

0130 UT Tuesday WRMI 9395 to NNW
0030 UT Wednesday WRMI 9395 to NNW

1000 UT Wednesday Unique R, Australia 5035 USB [low power]
1030 UT Wednesday WRMI 5850 to NW [canceled? please check if awake]
2200 UT Wednesday WBCQ 7490v to WSW
0130 UT Thursday WRMI 9395 to NNW
0130 UT Thursday WRMI 5010 to S
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2175 monitoring: confirmed UT Tuesday January 31 at 0130 on WRMI 9395, S9+30 into Missouri SDR, S9+20/30 direct. Next:

0030 UT Wednesday WRMI 9395 to NNW
1000 UT Wednesday Unique R, Australia 5035 USB [low power]
1030 UT Wednesday WRMI 5850 to NW [canceled? please check if awake]
2200 UT Wednesday WBCQ 7490v to WSW
0130 UT Thursday WRMI 9395 to NNW
0130 UT Thursday WRMI 5010 to S
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2175 monitoring: ``From: Richard Lemke, St. Albert, Alberta, Canada, the desk of Richard’s listening Post, Radio: JRC NRD-535 HF, Antenna: random long wires in the trees. Dear Glenn: Confirming World of Radio #2175, WRMI:

9395, slight QRN, 0130, 0144, 0159 (45543), (55433), 0158, Jan 31 [Tue]
9395, 0031, 0054 (55343), (45343), 0058, February 1 UTC 2023 [Wed]
5850, overslept, 1029, February 1 UTC [Wed] (Lemke, Richard -AB)``

I am disappointed that none of the hundreds of WOR iog members, many of whom are in awake timezones at 1030, checked that 5850 broadcast, despite my repeated requests. It had been replaced on the WRMI skedgrid, but was still heard for at least one week. Once again I need to zzz thru it.

Confirmed UT Wednesday February 1 at 0030 on WRMI 9395, S9+22/25 into Missouri SDR.

Also confirmed Wednesday February 1 starting at 2200:20 on WBCQ 7489.94, S9/S6 direct. Next:

0130 UT Thursday WRMI 9395 to NNW
0130 UT Thursday WRMI 5010 to S

Full schedule including AM, FM, webcasts, satellite, podcasts: http://www.worldofradio.com/radioskd.html

Like our website, a noncommercial service for which financial support

** U S A. Preparing for `AAAWWW` on WBCQ at 0100-0200 UT Saturday January 28, from 0056 I check the SW frequencies via Maryland SDR: 6160 -63 Hz = 6159.937; 5130 with IS & ID, +3/5 Hz = 5130.004; 7490 -62 Hz = 7489.938; 3265+ off. This time I stay on 7490- instead of switching to its webcast. 0100 `WTO` theme and Allan`s first words are ``magnificent  bastards``, so this is a new live one. 0102 he has to cough, but beautiful Angela is by his side so both in Deland of Fla now. Explains that two weeks ago on a flight back from Maine he caught something, not COVID which has been bothering him ever since, felt like crap. Flight was from Presqu`île to Orlando/Sanford. Pressurization also blew his left ear, deaf there for three days; anyhow explains why no new show last week. Complains about inflation, eggs up from less than a dollar a dozen to $10 - really? Blames government in general, 535 members of congress dismissed with an expletive.

``We did not have to have a war in Ukraine`` -- whew: tell that to Putin. 0114 the early history of tape recording, invented by the Nazis. 0123 as trimulcasting asking for reports. No specific datestamp. 0132 should keep SW and not move everything to the cloud. Discussing hamfests missed and to be attended. Call from Mr Transistor. 0138 trimulcasting on 7, 6, 5 MHz. 0141 call from Niagara Falls, Ontario, reception in a hotel. Explains meterbands MUFs. Refers to 5G article by Wilner in Radio World. BCQ website may be hacked, beware. Number of AM stations in US declining but not by as much as you would think: lost 25 last year. 0158 invites Angela to pray but she hands it back to him. Maybe only a semiminute late joining Hal Turner. Again this week never heard a reference to ``our president T****`` during AAAWWW (Glenn Hauser, OK, WOR)

** U S A. 4980, Jan 30 at 0717, S9+20 of dead air, another WRMI not turned off, #4 supposedly scheduled 23-05 UT only with System C Legends; but the System C program schedule below unshows 4980 at all! nor for any other System (Glenn Hauser, OK, WOR) and again below

** U S A. 17790, Jan 29 at 2131, S9+10 of dead air, still past 2141. WRMI did not turn off #7, scheduled 1500-2100 only, Radio Africa Network, toward S America, not Africa. NO details of programming as perhaps ashamed of some of the dead and discredited gospel huxters they are so excited, jumping for joy, to diffuse. WRMI sked refers to https://www.radiopanam.com/

where no program sked can be found, nor specifically via:
https://www.radiopanam.com/impact/radio-africa-network/
(Glenn Hauser, OK, WOR)

** U S A. 4980, Feb 1 at 0715, S9+30 of silence from WRMI which should have finished by 0500; vying for the dead-air sweepstakes with RHCuba, q.v. (Glenn Hauser, OK, WOR)

** U S A. 5890, Thu Jan 26 at 0715, WWCR-4 is S9+30 with unknown gospel huxter not // 5850 WRMITOMBS, despite supposed to run overnight only on Sat & Sun (Glenn Hauser, OK, WOR)

** U S A. 5890, Fri Jan 27 after 0700, WWCR is off again unlike 24 hours earlier with unID gospel huxter, maybe a special booking for Thursdays only? (Glenn Hauser, OK, WOR)

** U S A. 5935 & 4840, Feb 1 at 0713 & 0718 chex, WWCRs are OFF, along with 5890 & 3215 which are normally mostly off overnight except weekends. Icy weather? Checking Nashville airport NWS hourly conditions: at 0553 & 0653 overcast; but at 0453 & earlier, had been freezing rain. Next check at 1630, all are on nominally, 9980, 12160, 13845 and with sporadic-E boost, 15825 (Glenn Hauser, OK, WOR)

** U S A. 900, Jan 30 at 2230-2300 UT, KSGL Wichita KS, I find myself listening to while resting/napping for some nice music: nostalgic love songs, like `Midnight Gambler`, `Green Eyes` today. It`s 250/28 watts, direxional E/W squished but sufficient signal to Enid, barely beyond the daytime fringe contour per radio-locator. I never hear it at night tho XEW hardly merits protexion any more. KSGL is split/personality between `Music You Remember` -- is that a satellite syndication? And gospel-huxtering, fortunately each in distinct segments. This leads to program schedules and other info: http://www.ksglradio.com/
Official FCC sunset times in UT: 2330 Jan, 0015 Feb, 0030 March... I think it used to be IBOC, but too weak here to notice noise circa 887, 913; and no longer listed as such in NRC AM Log (Glenn Hauser, OK, WOR)

** VANUATU. 11835, Jan 26 at 0718, R. Vanuatu X 3 with island music at S7/S9, while X 2 on 7890 is JBA carrier only (Glenn Hauser, OK, WOR)

** VANUATU. 11835, Jan 27 at 0737, S5/S7 talk from R. Vanuatu X 3; and 7890 = X 2 JBA (Glenn Hauser, OK, WOR)

** VANUATU [and non]. 7260, Jan 29 at 0635, JBA carrier from R. Vanuatu; by 0730 check, 11835 S8/S9 with island music, 3 x 3945. Compared at 0735 to NZ on 13755: S9+10 (Glenn Hauser, OK, WOR)

** VANUATU. 7260, Jan 30 at 0653, R. Vanuatu is JBA still here,

unchecked whether 7890 & 11835 after 0659 (Glenn Hauser, OK, WOR)

** VANUATU. 11835, Jan 31 at 0731, R. Vanuatu is S8/S9 with drumming and announcements on 3 x 3945, while that and X 2 on 7890 not checked. As to be expected, NZ 13755 also with VG signal now (Glenn Hauser, OK, WOR)

** VANUATU. 7890, Feb 1 at 0716, JBA carrier from R. Vanuatu X 2 but none making it on X 3 = 11835; likewise 13755 NZ is but a JBA carrier (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA MW carrier search, Jan 27 at 0716: 558-2, 855, 1044, 1107, 1125-2. All of these correlate with SPAIN, at this late hour, and no NW Africans. Madrid sunrise: 0729. Also JJBBA carrier on 846, TP Kiritimati. Blitzortung shows none anywhere in or around North America now (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA 9/kHz split MW carrier search, Jan 28 from 0704, not in the order tuned: 558-2, 774-2, 855-2, 882, 1044, 1521. Also 846 TP Kiritimati. At first 855 had one unusually strong signal, thought I might get some audio, but a few minutes later just two weakers beating. 1521 continues to be mysterious, as nothing but a 5 kW in Spain should be possible this late; no Africans listed. Others also likely Spain, with Canary alternatively on 882 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA split 9/kHz MW carrier search, Jan 29 at 0636, trying earlier than usual: 693, 774, 855, 1053, 1521. 693 probably BBC Radio 5 Live synchros almost 300 kW total; 1053 Talk Sport from UK, 500 kW altho also weaker Spaniards listed; 774 and 855 likely Spains as usual. Notably absent is 684, used to be 600 kW from Sevilla RNE1, but power cut since last year, or off? MWlist.org shows 24h at 150/100 kW, which ought to be detectable here if the other weaker ones are. As it`s Sunday, no TP signal on 846 from Kiritimati (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA 9/kHz split MW carrier search, Jan 30 at 0656: 855-2, 1044, 1089 kHz. Lowers would be Spain, but none on 1089, rather 700+ kW of TalkSport synchros, UK. No 846 TP Kiritimati this time (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-oceanic JBA 9/kHz split MW carrier search, Jan 31 at 0739: unusually, none at all heard: getting too late and/or high-latitude TA paths suppressed? and TP Kiritimati maybe off? While on SW, NZ 13 and Vanuatu 11 MHz coming in very well (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA 9/kHz split MW carrier search, Feb 1

at 0218: 684, 774-2, 855-2, 909, 999, 1089, 1107-2, 1125, 1296. These correlate with Spain or UK, most likely closest edges of Europe. Glad to hear 684 unlike later scans, likely what`s left of Sevilla; which in the meantime I see is still routinely logged in Europe (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA 9/kHz split MW carrier search, Feb 1 at 0725: 684, 837, 855-2, 1116-2, all likely Spain. Still no 846 TP Kiritimati; has anyone confirmed it lately? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 5955, Feb 1 at 0713, JBA carrier where normally nothing but Cuban pulse jamming against nothing. Only listee in EiBi & Aoki is Sunlite, Holland, at 0500-1500, 500 watts with irregular test transmissions as of WRTH 2022. BTW, the new WRTH 2023 is about to start shipping (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 10001 USB, Jan 30 at 0718, 2-way intermittent, unseems Spanish; inadvisable right next to WWV/H! (Glenn Hauser, OK, WOR)
